

Mouse TRKB (Tyrosine Kinase B) ELISA Kit | TRKB elisa kit

Mouse TRKB (Tyrosine Kinase B) ELISA Kit

CATALOG #
AAA277307

REACTIVITY
Mouse

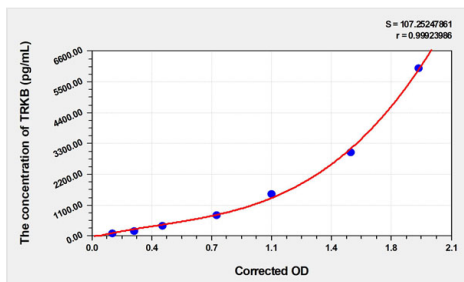

PRODUCT SYNONYMS

TRKB (Tyrosine Kinase B); Mouse TRKB (Tyrosine Kinase B) ELISA Kit; Tyrosine Kinase B; TRKB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of Mouse TRKB. No significant cross-reactivity or interference between Mouse TRKB and analogues was observed.
Assay Type	Sandwich
Detection Range	93.75-6000 pg/mL
Sensitivity	37.24 pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV% < 8%. Three samples of known concentration were tested twenty times on 1 plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (precision between assays)? CV% < 10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.

ADDITIONAL INFORMATION

Related Product Information for TRKB elisa kit

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to TRKB. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to TRKB. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain TRKB, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of TRKB in the samples is then determined by comparing the OD of the samples to the standard curve.
