

Hamster TNF-a (Tumor Necrosis Factor-alpha) ELISA Kit | TNF-a elisa kit

Hamster TNF-a (Tumor Necrosis Factor-alpha) ELISA Kit

CATALOG #
AAA277351

REACTIVITY
Hamster

PRODUCT SYNONYMS

TNF-a (Tumor Necrosis Factor-alpha); Hamster TNF-a (Tumor Necrosis Factor-alpha) ELISA Kit; DIF; TNF-A; TNFSF2; Cachectin; Tumor Necrosis Factor Ligand Superfamily Member 2; TNF-a elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Hamster
Specificity	This assay has high sensitivity and excellent specificity for detection of Hamster TNF-a. No significant cross-reactivity or interference between Hamster TNF-a and analogues was observed.
Assay Type	Sandwich
Detection Range	3.13-200 pg/mL
Sensitivity	1.12 pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay)? CV% < 8%. Three samples of known concentration were tested twenty times on 1 plate to assess intra-assay precision.
Inter-assay Precision	Inter-assay Precision (precision between assays)? CV% < 10%. Three samples of known concentration were tested in forty separate assays to assess inter-assay precision.

ADDITIONAL INFORMATION

Related Product Information for TNF-a elisa kit

Principle of the Assay: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Hamster TNF-a. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Hamster TNF-a. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Hamster TNF-a, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of Hamster TNF-a in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for TNF-a elisa kit

Cytokine; Tumor immunity; Infection immunity

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
