### PRODUCT SYNONYMS

DERF2; Polyclonal Antibody; Anti-DERF2 Antibody; Rabbit Polyclonal; Dermatophagoides farinae DERF2 Antibody; Rabbit PAb; Antigen Affinity Purified; anti-DERF2 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                                                                                                                                                  |
|-------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                                                                                                                                                           |
| Clonality                                       | Polyclonal                                                                                                                                                                                                                                       |
| Isotype                                         | Rabbit IgG                                                                                                                                                                                                                                       |
| Specificity                                     | Dermatophagoides farinae DERF2                                                                                                                                                                                                                   |
| Form/Format                                     | 0.2 um filtered solution in PBS                                                                                                                                                                                                                  |
| Applicable Applications for anti-DERF2 antibody | ELISA                                                                                                                                                                                                                                            |
| Application Notes                               | ELISA: 1:5000-1:10000<br>This antibody can be used at 1:5000-1:10000 with the appropriate secondary reagents to detect Dermatophagoides farinae DERF2<br>Optimal concentrations/dilutions should be determined by the end user.                  |
| Immunogen                                       | Recombinant Dermatophagoides farinae DERF2 Protein (Catalog# please inquire)                                                                                                                                                                     |
| Preparation                                     | Produced in rabbits immunized with purified, recombinant Dermatophagoides farinae DERF2. DERF2 specific IgG was purified by Dermatophagoides farinae DERF2 affinity chromatography.                                                              |
| Preparation and Storage                         | This antibody can be stored at 2-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
