

Chicken CRP (C Reactive Protein) ELISA Kit | CRP elisa kit

Chicken CRP (C Reactive Protein) ELISA Kit

CATALOG #
AAA278198

REACTIVITY
Chicken

PRODUCT SYNONYMS

CRP (C Reactive Protein); Chicken CRP (C Reactive Protein) ELISA Kit; C-RP; PTX1; Pentraxin-Related; Pentraxin 1; CRP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Chicken
Assay Type	Sandwich
Samples	serum, plasma and other biological fluids
Detection Range	7.81-500ng/mL
Sensitivity	0.112ng/mL

ADDITIONAL INFORMATION

Related Product Information for CRP elisa kit

Test Principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Chicken CRP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Chicken CRP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Chicken CRP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Chicken CRP in the samples is then determined by comparing the OD of the samples to the standard curve.
