

Cattle MPO (Myeloperoxidase) ELISA Kit | MPO elisa kit

Cattle MPO (Myeloperoxidase) ELISA Kit

CATALOG #
AAA278547

REACTIVITY
Cattle

PRODUCT SYNONYMS

MPO (Myeloperoxidase); Cattle MPO (Myeloperoxidase) ELISA Kit; Mpo; Myeloperoxidase ; MPO; MPO elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Cattle
Assay Type	Sandwich
Samples	Serum, plasma and other biological fluids.
Detection Range	15.63-1000ng/mL
Sensitivity	3.54ng/mL

ADDITIONAL INFORMATION

Related Product Information for MPO elisa kit

Test Principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Cattle MPO. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cattle MPO. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Cattle MPO, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Cattle MPO in the samples is then determined by comparing the OD of the samples to the standard curve.
