

Dog CRP (C-Reactive Protein) ELISA Kit | CRP elisa kit

Dog CRP (C-Reactive Protein) ELISA Kit

CATALOG #
AAA278706

REACTIVITY
Dog

PRODUCT SYNONYMS

CRP (C-Reactive Protein); Dog CRP (C-Reactive Protein) ELISA Kit; C-RP; PTX1; Pentraxin-Related; Pentraxin 1; CRP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Dog
Assay Type	Sandwich
Samples	Serum, plasma and other biological fluids.
Detection Range	7.81-500ng/mL
Sensitivity	0.112ng/mL

ADDITIONAL INFORMATION

Related Product Information for CRP elisa kit

Test Principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Dog CRP. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Dog CRP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Dog CRP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Dog CRP in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for CRP elisa kit

Tumor immunity; Infection immunity; Cardiovascular biology; Rheumatology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
