

Horse FG (Fibrinogen) ELISA Kit | FG elisa kit

Horse FG (Fibrinogen) ELISA Kit

CATALOG #
AAA278787

REACTIVITY
Horse

PRODUCT SYNONYMS

FG (Fibrinogen); Horse FG (Fibrinogen) ELISA Kit; F1; FI; Fbg; Coagulation Factor I; FG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Horse
Assay Type	Sandwich
Samples	Plasma
Detection Range	1.57-100ug/mL
Sensitivity	0.49ug/mL

ADDITIONAL INFORMATION

Related Product Information for FG elisa kit

Test Principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Horse FG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Horse FG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Horse FG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Horse FG in the samples is then determined by comparing the OD of the samples to the standard curve.
