

Human sLR (Leptin Soluble Receptor) ELISA Kit | sLR elisa kit

Human sLR (Leptin Soluble Receptor) ELISA Kit

CATALOG #
AAA278809

REACTIVITY
Human

PRODUCT SYNONYMS

sLR (Leptin Soluble Receptor); Human sLR (Leptin Soluble Receptor) ELISA Kit; Leptin Soluble Receptor; sLR elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Assay Type	Sandwich
Samples	serum, plasma, saliva, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
Detection Range	0.32-20ng/mL
Sensitivity	0.12ng/mL

ADDITIONAL INFORMATION

Related Product Information for sLR elisa kit

Test Principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Human sLR. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human sLR. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Human sLR, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Human sLR in the samples is then determined by comparing the OD of the samples to the standard curve.

Product Categories/Family for sLR elisa kit

Metabolic pathway; Endocrinology; Cardiovascular biology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
