

Hamster HDL (High Density Lipoprotein) ELISA Kit | HDL elisa kit

Hamster HDL (High Density Lipoprotein) ELISA Kit

CATALOG #
AAA278852

REACTIVITY
Hamster

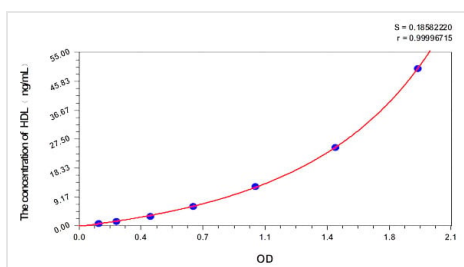

PRODUCT SYNONYMS

HDL (High Density Lipoprotein); Hamster HDL (High Density Lipoprotein) ELISA Kit; High Density Lipoprotein; HDL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Hamster
Assay Type	Sandwich
Samples	Serum, plasma and other biological fluids
Detection Range	7.82-500ug/mL
Sensitivity	2.62ug/mL

ADDITIONAL INFORMATION

Related Product Information for HDL elisa kit

Test Principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Hamster HDL. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Hamster HDL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Hamster HDL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of Hamster HDL in the samples is then determined by comparing the OD of the samples to the standard curve.
