IMAGES

IHC (Immunohiostchemistry)
ANKS1B Antibody (Center) immunohistochemistry analysis in formalin fixed and paraffin embedded human brain tissue followed by peroxidase conjugation of the secondary antibody and DAB staining.This data demonstrates the use of ANKS1B Antibody (Center) for immunohistochemistry. Clinical relevance has not been evaluated.

WB (Western Blot)
ANKS1B Antibody (Center) western blot analysis in NCI-H292 cell line lysates (35ug/lane).This demonstrates the ANKS1B antibody detected the ANKS1B protein (arrow).

ADDITIONAL INFORMATION

Related Product Information for anti-ANKS1B antibody	Isoform 2 may participate in the regulation of nucleoplasmic coilin protein interactions in neuronal and transformed cells. Isoform 3 can regulate global protein synthesis by altering nucleolar numbers (By similarity). Isoform 4 may play a role as a modulator of APP processing. Overexpression can down-regulate APP processing.
