IMAGES

FCM/FACS (Flow Cytometry)
POLE3 Antibody (N-term) flow cytometry analysis of K562 cells (bottom histogram) compared to a negative control cell (top histogram).FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

WB (Western Blot)
POLE3 Antibody (N-term) western blot analysis in K562 cell line lysates (35ug/lane).This demonstrates the POLE3 antibody detected the POLE3 protein (arrow).

ADDITIONAL INFORMATION

Related Product Information for anti-POLE3 antibody	POLE3 is a histone-fold protein that interacts with other histone-fold proteins to bind DNA in a sequence-independent manner. These histone-fold protein dimers combine within larger enzymatic complexes for DNA transcription, replication, and packaging.
