| CATALOG #<br><b>AAA286804</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Zebrafish</b> | APPLICATIONS<br><b>ELISA, Western Blot</b> |
|-------------------------------|-----------------------|--------------------------------|--------------------------------------------|

### PRODUCT SYNONYMS

gabarapa; Polyclonal Antibody; (DANRE) gabarapa Antibody (N-Term); anti-gabarapa antibody

### PRODUCT SPECIFICATIONS

|                                                    |                                                                                                                                                                              |
|----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                               | Rabbit                                                                                                                                                                       |
| Reactivity                                         | Zebrafish                                                                                                                                                                    |
| Clonality                                          | Polyclonal                                                                                                                                                                   |
| Isotype                                            | Rabbit IgG                                                                                                                                                                   |
| Specificity                                        | This DANRE gabarapa antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 33-66 amino acids from the human region of DANRE gabarapa. |
| Purity/Purification                                | This antibody is purified through a protein A column, followed by peptide affinity purification.                                                                             |
| Form/Format                                        | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.                                                                                                  |
| Sequence Length                                    | 122                                                                                                                                                                          |
| Applicable Applications for anti-gabarapa antibody | ELISA, WB (Western Blot)                                                                                                                                                     |
| Preparation and Storage                            | Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.                                      |

### IMAGES

#### WB (Western Blot)

Anti-gabarapa Antibody (N-Term) at 1:500 dilution + zebrafish lysates. Lysates/proteins at 20 ug per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 14 kDa. Blocking/Dilution buffer: 5% NFD/MTBST.
