IMAGES

IHC (Immunohiostchemistry)
CHRD Antibody (N-term) immunohistochemistry analysis in formalin fixed and paraffin embedded human liver tissue followed by peroxidase conjugation of the secondary antibody and DAB staining.This data demonstrates the use of CHRD Antibody (N-term) for immunohistochemistry. Clinical relevance has not been evaluated.

WB (Western Blot)
CHRD Antibody (N-term) western blot analysis in mouse bladder tissue lysates (35ug/lane).This demonstrates the CHRD antibody detected the CHRD protein (arrow).

ADDITIONAL INFORMATION

Related Product Information for anti-CHRD antibody	CHRD is a secreted protein that dorsalizes early vertebrate embryonic tissues by binding to ventralizing TGF-beta-like bone morphogenetic proteins and sequestering them in latent complexes. This protein may also have roles in organogenesis and during adulthood.
