

## Rabbit Cleaved-Factor Xa activated HC Polyclonal Antibody | anti-F10 antibody

Cleaved-Factor Xa activated HC (I235) Polyclonal Antibody

|                               |                       |                                        |                                     |
|-------------------------------|-----------------------|----------------------------------------|-------------------------------------|
| CATALOG #<br><b>AAA293448</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>Western Blot</b> |
|-------------------------------|-----------------------|----------------------------------------|-------------------------------------|

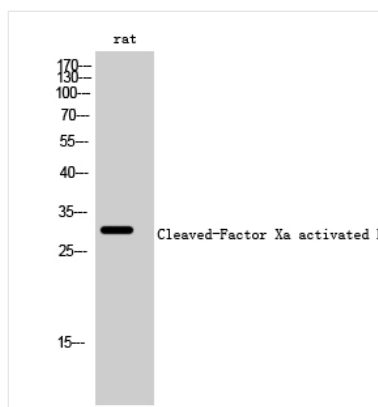

### PRODUCT SYNONYMS

Cleaved-Factor Xa activated HC; Polyclonal Antibody; Cleaved-Factor Xa activated HC (I235) Polyclonal Antibody; F10; Coagulation factor X; Stuart factor; Stuart-Prower factor; anti-F10 antibody

### PRODUCT SPECIFICATIONS

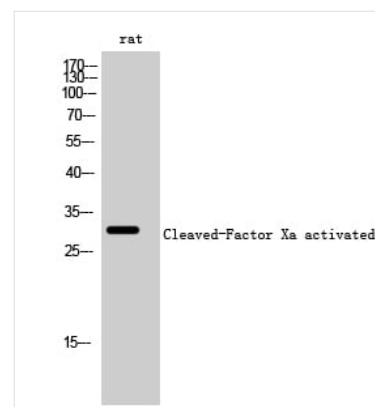

|                                               |                                                                                                                                                       |
|-----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                          | Rabbit                                                                                                                                                |
| Reactivity                                    | Human, Mouse, Rat                                                                                                                                     |
| Clonality                                     | Polyclonal                                                                                                                                            |
| Applicable Applications for anti-F10 antibody | WB (Western Blot)                                                                                                                                     |
| Preparation and Storage                       | Maintain refrigerated at 2-8 degree C for up to 2 weeks. For long term storage store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |

### IMAGES

WB (Western Blot)

Dilution: Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.
