

## Rat Soluble Terminal Complement Complex (SC5B-9) ELISA Kit | SC5B-9 elisa kit

Rat Soluble Terminal Complement Complex (SC5B-9) ELISA Kit

CATALOG #  
AAA29603

REACTIVITY  
Rat

### PRODUCT SYNONYMS

Soluble Terminal Complement Complex (SC5B-9); Rat Soluble Terminal Complement Complex (SC5B-9) ELISA Kit; SC5B-9 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                      |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                  |
| Assay Type              | Quantitative Sandwich                                                                                                                |
| Detection Range         | 6.25ng/ml-200ng/ml                                                                                                                   |
| Sensitivity             | 1.0ng/ml                                                                                                                             |
| Intra-assay Precision   | Intra-assay CV (%) is less than 15%.                                                                                                 |
| Inter-assay Precision   | Inter-assay CV (%) is less than 15%. [CV(%) = SD/mean ×100]. All CV% should be compared by concentration, not compared by OD values. |
| Preparation and Storage | Store all reagents at 2-8 degree C                                                                                                   |

### ADDITIONAL INFORMATION

#### Related Product Information for SC5B-9 elisa kit

Background: This Quantitative Sandwich ELISA kit is for lab reagent/research use only, not for drug, household, therapeutic or diagnostic applications! This kit is intended to be used for determine the level of SC5B-9 (hereafter termed "analyte") in undiluted original Rat serum, plasma or tissue homogenates samples. For other sample types please contact tech support to determine compatibility with this assay. This kit is not suitable for assaying non-biological sources of substances.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
