| Reactivity                                            | Human, Mouse, Cynomolgus, Rhesus Macaque                                                                                                         |
| Clonality                                             | Monoclonal                                                                                                                                       |
| Isotype                                               | IgG1                                                                                                                                             |
| Specificity                                           | CD38                                                                                                                                             |
| Form/Format                                           | Purified monoclonal antibody supplied in PBS, pH6.0, without preservative. This antibody is purified through a protein A column.                 |
| Concentration                                         | 1mg/ml (varies by lot)                                                                                                                           |
| Applicable Applications for CD38 recombinant antibody | FA (Functional Assay), FCM/FACS (Flow Cytometry), ELISA                                                                                          |
| Endotoxin                                             | < 0.001EU/ug, determined by LAL method.                                                                                                          |
| Conjugation                                           | Unconjugated                                                                                                                                     |
| Dry Ice Note                                          | The product may be shipped with dry ice, and an additional fee may be added to your shipping cost.                                               |
| Preparation and Storage                               | Store at -80 degree C for 2 years under sterile conditions; -20 degree C for 1 year under sterile conditions; Avoid repeated freeze-thaw cycles. |

### IMAGES

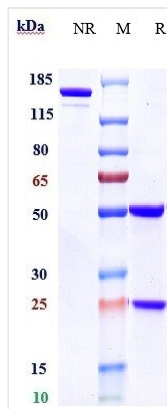

#### Application Data

Immobilized human CD38 NHis at 2 ug/mL can bind Anti-CD38 Reference Antibody (daratumumab), EC50=0.04792ug/mL

#### Application Data

The purity of Anti-CD38 Reference Antibody (daratumumab) is more than 98.99% ,determined by SEC-HPLC.

#### SDS-PAGE

Anti-CD38 Reference Antibody (daratumumab) on SDS-PAGE under reducing (R) condition.  
The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%
