

Rabbit anti-Human, Mouse MTSS1 Polyclonal Antibody | anti-MTSS1 antibody

MTSS1 Antibody

CATALOG # AAA306959	HOST Rabbit	REACTIVITY Human, Mouse	APPLICATIONS Immunohistochemistry
-------------------------------	-----------------------	-----------------------------------	---

PRODUCT SYNONYMS

MTSS1; Polyclonal Antibody; MTSS1 Antibody; MIM; MIMA; MIMB; anti-MTSS1 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human, Mouse
Clonality	Polyclonal
Specificity	The antibody detects endogenous levels of total MTSS1 protein.
Purity/Purification	Antigen affinity purification.
Form/Format	Rabbit IgG in pH7.3 PBS, 0.05% NaN ₃ , 50% Glycerol.
Concentration	0.7 mg/ml (varies by lot)
Sequence Length	759
Applicable Applications for anti-MTSS1 antibody	IHC (Immunohistochemistry)
Immunogen Type	Peptide
Immunogen Description	Synthetic peptide corresponding to a region derived from internal residues of human metastasis suppressor 1
Target Name	MTSS1
Preparation and Storage	Store at -20 degree C

IMAGES

IHC (Immunohistochemistry)

Immunohistochemical analysis of paraffin-embedded Human brain tissue using at dilution 1/20.

IHC (Immunohistochemistry)

Immunohistochemical analysis of paraffin-embedded Human thyroid cancer tissue using at dilution 1/20.

ADDITIONAL INFORMATION

Related Product Information for anti-MTSS1 antibody	MTSS1 (metastasis suppressor 1), also known as MIM, MIMA or MIMB, is a 755 amino acid protein that contains one Actin-binding WH2 (Wiskott-Aldrich syndrome protein homology-2) domain and one IMD domain. Expressed in a variety of tissues including testis, thymus, prostate, spleen, colon, uterus and blood, MTSS1 is thought to bind to Actin and, via this binding, may affect the dynamics of the cytoskeleton. Through its association with the cytoskeleton, MTSS1 plays a role in controlling the progression and metastasis of carcinomas in various organ sites throughout the body and, when expressed at normal levels, functions as a tumor suppressor. Overexpression of MTSS1 results in the formation of abnormal actin structures, an event that may lead to tumorigenesis. Three isoforms of MTSS1 exist due to alternative splicing events.
Product Categories/Family for anti-MTSS1 antibody	Total protein Ab

NCBI AND UNIPROT INFORMATION

NCBI GI #	545479030
NCBI GeneID	9788
NCBI Accession #	NP_001269900.1
NCBI GenBank Nucleotide #	NM_001282971.1
UniProt Accession #	O43312; Q8TCA2; Q96RX2; J3KNK6
Molecular Weight	82,680 Da
NCBI Official Full Name	metastasis suppressor protein 1 isoform 1
NCBI Official Synonym Full Names	metastasis suppressor 1
NCBI Official Symbol	MTSS1
NCBI Official Synonym Symbols	MIM; MIMA; MIMB
NCBI Protein Information	metastasis suppressor protein 1
UniProt Protein Name	Metastasis suppressor protein 1
UniProt Gene Name	MTSS1
UniProt Synonym Gene Names	KIAA0429; MIM
UniProt Entry Name	MTSS1_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
