ADDITIONAL INFORMATION

Related Product Information for anti-ILF2 antibody	EIF3S2 is the largest of the EIFs. It consists of at least 10 nonidentical subunits in mammals. In S. cerevisiae the p39 subunit contains WD repeats; these are thought to mediate protein-protein interactions. The p39 protein appears to be essential for maintaining the integrity of the yeast EIF3 complex. The mammalian EIF3-p36 subunit is homologous to yeast p39.
