

Rabbit mAID Polyclonal Antibody

mAID-tag Antibody

CATALOG # AAA312115	HOST Rabbit	APPLICATIONS Western Blot
-------------------------------	-----------------------	-------------------------------------

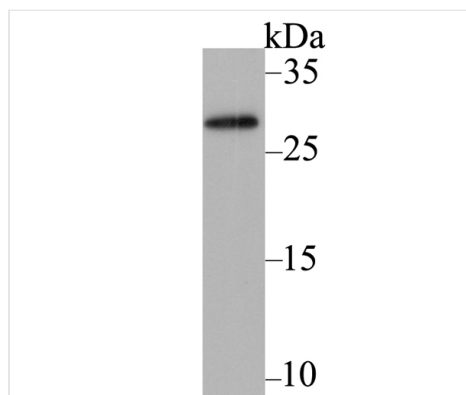

PRODUCT SYNONYMS

mAID; Polyclonal Antibody; mAID-tag Antibody; anti-mAID antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Clonality	Polyclonal
Purity/Purification	Peptide affinity purified.
Form/Format	1*TBS (pH7.4), 0.5%BSA, 50%Glycerol. Preservative: 0.05% Sodium Azide.
Sequence Length	310
Applicable Applications for anti-mAID antibody	WB (Western Blot)
Immunogen	Synthetic peptide of Auxin Inducible Degron Internal region (mini-AID-tag).
Conjugation	Unconjugated
Preparation and Storage	Store at -20 degree C.

IMAGES

WB (Western Blot)

Western blot analysis of Mini-AID-tag on fusion protein using anti-Mini-AID-tag antibody at 1/5, 000 dilution.

ADDITIONAL INFORMATION

Related Product Information for anti-mAID antibody	Auxin-inducible degron (AID) technology allows rapid depletion of proteins in animal cells and fungi. Auxin includes chemicals such as IAA (indole-3-aceticacid) and NAA (1-naphtalene acetic acid) and includes inhibitors in plants. For the degradation, and SCF ubiquitin ligase complex containing the TIR1 protein is activated via the association of auxin with TIR1. Because the core SCF components are conserved in all eukaryotic cells, it is possible to transplant the degradation pathway to yeast and mammalian cells by expressing TIR1. In those cells expressing TIR1, a protein fused with degron (AID degron) derived from AUX/IAA can be rapidly degraded in the presence of auxin. Anti-mini-AID tag can detected both mini-AID-tag and full-length AID-tag.
Product Categories/Family for anti-mAID antibody	Total protein Ab

NCBI AND UNIPROT INFORMATION

NCBI GI #	33150570
NCBI Official Full Name	Maid

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
