### PRODUCT SYNONYMS

TMPRSS13; Polyclonal Antibody; TMPRSS13 Conjugated Antibody; MSP; MSPL; MSPS; TMPRSS11; anti-TMPRSS13 antibody

### PRODUCT SPECIFICATIONS

|                         |                                                                                                         |
|-------------------------|---------------------------------------------------------------------------------------------------------|
| Host                    | Rabbit                                                                                                  |
| Reactivity              | Human                                                                                                   |
| Clonality               | Polyclonal                                                                                              |
| Specificity             | The antibody detects endogenous levels of total TMPRSS13 protein.                                       |
| Form/Format             | 0.01M Sodium Phosphate, 0.25M NaCl, pH 7.6, 5mg/ml Bovine Serum Albumin, 0.02% Sodium Azide             |
| Immunogen               | Fusion protein corresponding to residues near the C terminal of human transmembrane protease, serine 13 |
| Excitation Emission     | AF647: 651nm/667nm                                                                                      |
| Preparation and Storage | Store at 4 degree C in the dark for 6 months.                                                           |

### ADDITIONAL INFORMATION

|                                                        |                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-TMPRSS13 antibody | This gene encodes a member of the type II transmembrane serine protease family. Transmembrane serine proteases are regulated by protease inhibitors and known to function in development, homeostasis, infection, and tumorigenesis. Multiple transcript variants encoding different isoforms have been found for this gene. |
|--------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
