

Rabbit Brucella Polyclonal Antibody

Brucella Antibody FITC Conjugated

CATALOG # AAA313032	HOST Rabbit	REACTIVITY Brucella	APPLICATIONS Immunocytochemistry, Flow Cytometry, Functional Assay
-------------------------------	-----------------------	-------------------------------	--

PRODUCT SYNONYMS

Brucella; Polyclonal Antibody; Brucella Antibody FITC Conjugated; anti-Brucella antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Brucella
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	Purified by Protein A
Form/Format	0.01M TBS(pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.
Concentration	1 mg/ml (varies by lot)
Applicable Applications for anti-Brucella antibody	ICC (Immunocytochemistry), FCM/FACS (Flow Cytometry)
Conjugation	FITC
Excitation Emission	494nm 518nm
Immunogen	whole cell protein of Brucella
Preparation and Storage	Store at -20°C for one year. Avoid repeated freeze/thaw cycles.

ADDITIONAL INFORMATION

Related Product Information for anti-Brucella antibody	Brucellosis is a zoonotic infection caused by the bacterial genus Brucella. The bacteria are transmitted from animals to humans by ingestion through infected food products, direct contact with an infected animal, or inhalation of aerosols. The disease is an old one that has been known by various names, including Mediterranean fever, Malta fever, gastric remittent fever, and undulant fever. Humans are accidental hosts, but brucellosis continues to be a major public health concern worldwide and is the most common zoonotic infection.
Product Categories/Family for anti-Brucella antibody	Conjugated Primary Antibodies

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
