### PRODUCT SYNONYMS

TMEM176A; Polyclonal Antibody; TMEM176A Polyclonal Antibody PE Conjugated; anti-TMEM176A antibody

### PRODUCT SPECIFICATIONS

|                                                    |                                                                       |
|----------------------------------------------------|-----------------------------------------------------------------------|
| Host                                               | Rabbit                                                                |
| Reactivity                                         | Human, Mouse                                                          |
| Clonality                                          | Polyclonal                                                            |
| Purity/Purification                                | affinity purified by Protein A                                        |
| Form/Format                                        | 0.01M TBS (pH7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.     |
| Concentration                                      | 1 mg/ml (varies by lot)                                               |
| Applicable Applications for anti-TMEM176A antibody | IF (Immunofluorescence), ICC (Immunocytochemistry)                    |
| Conjugation                                        | PE                                                                    |
| Immunogen Type                                     | 1-100/235                                                             |
| Preparation and Storage                            | Store at -20 degree C for one year. Avoid repeated freeze/thaw cycles |

### ADDITIONAL INFORMATION

|                                                      |                                               |
