| Host                                              | Rabbit                                                     |
| Reactivity                                        | Human, Mouse, Rat                                          |
| Clonality                                         | Polyclonal                                                 |
| Isotype                                           | IgG                                                        |
| Purity/Purification                               | Affinity purification                                      |
| Form/Format                                       | Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.  |
| Applicable Applications for anti-C5orf52 antibody | IHC (Immunohistochemistry), WB (Western Blot)              |
| Immunogen                                         | Recombinant fusion protein of mouse C5orf52 (NP_080426.1). |
| Preparation and Storage                           | Store at -20 degree C. Avoid freeze/thaw cycles.           |
