

## Human BACH1 ELISA Kit | BACH1 elisa kit

BACH1 Colorimetric Cell-Based ELISA Kit

CATALOG #  
**AAA315560**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

BACH1; BACH1 Colorimetric Cell-Based ELISA Kit; BAC1; BTB and CNC homolog 1; HA2303; Transcription regulator protein BACH1; BACH1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                             |
|-------------------------|---------------------------------------------|
| Reactivity              | Human                                       |
| Form/Format             | One 96-Well Plate                           |
| Sequence Length         | 736                                         |
| Samples                 | Researchers plate their cell line of choice |
| Assay Type              | Non-Phospho Cell-Based ELISA                |
| Sensitivity             | >=5000 cells/well                           |
| Detection Method        | Colorimetric 450 nm                         |
| Preparation and Storage | Store at 4 degree C.                        |

### ADDITIONAL INFORMATION

|                                               |                      |
|-----------------------------------------------|----------------------|
| Product Categories/Family for BACH1 elisa kit | Cell Based ELISA Kit |
|-----------------------------------------------|----------------------|

### NCBI AND UNIPROT INFORMATION

|                                  |                                                                          |
|----------------------------------|--------------------------------------------------------------------------|
| NCBI GI #                        | <a href="#">4502353</a>                                                  |
| NCBI GeneID                      | <a href="#">571</a>                                                      |
| NCBI Accession #                 | <a href="#">NP_001177.1</a>                                              |
| NCBI GenBank Nucleotide #        | <a href="#">NM_001186.3</a>                                              |
| UniProt Accession #              | <a href="#">O14867</a> ; <a href="#">O43285</a> ; <a href="#">Q6ICU0</a> |
| Molecular Weight                 | 81 kDa                                                                   |
| NCBI Official Full Name          | transcription regulator protein BACH1                                    |
| NCBI Official Synonym Full Names | BTB domain and CNC homolog 1                                             |
| NCBI Official Symbol             | BACH1                                                                    |
| NCBI Official Synonym Symbols    | BACH-1; BTBD24                                                           |
| NCBI Protein Information         | transcription regulator protein BACH1                                    |
| UniProt Protein Name             | Transcription regulator protein BACH1                                    |
| UniProt Gene Name                | <b>BACH1</b>                                                             |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
