

## Bovine Fibroblast Growth Factor 2 (FGF-2) ELISA Kit | FGF-2 elisa kit

Bovine Fibroblast Growth Factor 2 (FGF-2) ELISA Kit

CATALOG #  
AAA32299

REACTIVITY  
Bovine

### PRODUCT SYNONYMS

Fibroblast Growth Factor 2 (FGF-2); Bovine Fibroblast Growth Factor 2 (FGF-2) ELISA Kit; FGF-2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                 |
|-------------------------|-------------------------------------------------------------------------------------------------|
| Reactivity              | Bovine                                                                                          |
| Specificity             | No significant cross-reactivity or interference between this analyte and analogues is observed. |
| Samples                 | Undiluted original Bovine body fluids, tissue homogenates, secretions or feces samples.         |
| Assay Type              | Sandwich (Quantitative)                                                                         |
| Detection Range         | 6.25 pg/ml - 200 pg/ml.                                                                         |
| Sensitivity             | 1.0 pg/ml.                                                                                      |
| Intra-assay Precision   | Intra-assay CV (%) is less than 15%.                                                            |
| Inter-assay Precision   | Inter-assay CV (%) is less than 15%. [CV(%) = SD/mean ×100].                                    |
| Preparation and Storage | Store all reagents at 2-8 degree C                                                              |

### ADDITIONAL INFORMATION

|                                                 |                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for FGF-2 elisa kit | Background: This Quantitative Sandwich ELISA kit is only for in vitro research use only! This kit is intended to be used for determination the level of FGF2 (hereafter termed "analyte") in undiluted original Bovine body fluids, tissue homogenates, secretions or feces samples. This kit is NOT suitable for assaying non-biological sources of substances. |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### NCBI AND UNIPROT INFORMATION

|                           |                |
|---------------------------|----------------|
| NCBI GI #                 | 148368937      |
| NCBI GeneID               | 5184230        |
| NCBI Accession #          | YP_001257067.1 |
| NCBI GenBank Nucleotide # | NC_009503.1    |
| NCBI Official Full Name   | fgf-2          |
| NCBI Official Symbol      | fgf-2          |
| NCBI Protein Information  | fgf-2          |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
