

Human Dehydroepiandrosterone Sulfate, DHEA-S ELISA Kit | DHEA-S elisa kit

Human Dehydroepiandrosterone Sulfate, DHEA-S ELISA Kit

CATALOG #
AAA331955

REACTIVITY
Human

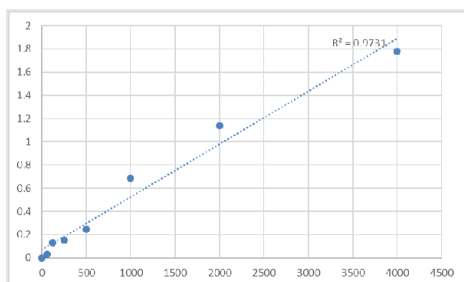

PRODUCT SYNONYMS

Dehydroepiandrosterone Sulfate; DHEA-S; Human Dehydroepiandrosterone Sulfate; DHEA-S ELISA Kit; DHEA-S elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Assay Type	Sandwich
Preparation and Storage	Store at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for DHEA-S elisa kit

Principle of the Assay: Human Dehydroepiandrosterone Sulfate (DHEA-S) ELISA Kit employs a two-site sandwich ELISA to quantitate DHEA-S in samples. An antibody specific for Human DHEA-S has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any DHEA-S present is bound by the immobilized antibody. After removing any unbound substances, HRP-Conjugated DHEA-S detection antibody is added to the wells. Following a wash to remove any unbound HRP reagent, a Chromogen solution is added to the wells and color develops in proportion to the amount of DHEA-S bound in the initial step. The color development is stopped and the intensity of the color is measured.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
