

## Mouse anti-Human CD57 Monoclonal Antibody | anti-CD57 antibody

Mouse Anti Human CD57

|                              |                      |                            |
|------------------------------|----------------------|----------------------------|
| CATALOG #<br><b>AAA37949</b> | HOST<br><b>Mouse</b> | REACTIVITY<br><b>Human</b> |
|------------------------------|----------------------|----------------------------|

### PRODUCT SYNONYMS

CD57; Monoclonal Antibody; Mouse Anti Human CD57; CD57 Antibody; Mouse Anti-Human; NK1; HNK1; LEU7; NK-1; GLCATP; GLCUATP; B3GAT1; anti-CD57 antibody

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                        |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | Mouse                                                                                                                                                  |
| Reactivity              | Human                                                                                                                                                  |
| Clonality               | Monoclonal                                                                                                                                             |
| Isotype                 | Mouse IgM                                                                                                                                              |
| Clone Number            | hCD57                                                                                                                                                  |
| Purity/Purification     | Ion-Exchange Column.                                                                                                                                   |
| Concentration           | Protein Concentration: 1mg/ml in PBS (after reconstitution). (varies by lot)                                                                           |
| Physical Appearance     | Sterile filtered White Lyophilized (freeze dried) powder.                                                                                              |
| Reconstitution          | Reconstitute with of H <sub>2</sub> O. Mix gently, wash the sides of the vial and wait 30-60 seconds before use.                                       |
| Immunogen               | Human CD57 Positive Cells.                                                                                                                             |
| Antibody Properties     | Staining antibody. For staining, use 10 ul/10 <sup>6</sup> cells.                                                                                      |
| Available Conjugates    | This antibody is also available conjugated to biotin and FITC. For staining with biotin or FITC-conjugated antibody use 5-10 ul/10 <sup>6</sup> cells. |
| Preparation and Storage | Lyophilized: store at 4°C. After reconstitution, if not intended for use within a month, aliquot and store at -20°C.                                   |

### ADDITIONAL INFORMATION

|                                                  |                                                                                             |
|--------------------------------------------------|---------------------------------------------------------------------------------------------|
| Product Categories/Family for anti-CD57 antibody | Monoclonal Antibodies; Anti-Human LYMPHOCYTES; Monoclonal Antibodies; Anti Human Lymphocyte |
|--------------------------------------------------|---------------------------------------------------------------------------------------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
