

Dengue Virus NS1 n-end Type 2 Recombinant Protein

Recombinant Dengue Virus NS1 n-end Type 2

CATALOG #
AAA38235

HOST
E Coli

PRODUCT SYNONYMS

Dengue Virus NS1 n-end Type 2; Recombinant Dengue Virus NS1 n-end Type 2; Dengue NS1 n; Dengue Virus NS1n Recombinant; Dengue NS1n; Dengue Virus NS1 n-end Type 2 recombinant protein

PRODUCT SPECIFICATIONS

Host	E Coli
Purity/Purification	Protein is >90% pure as determined by SDS-PAGE. Dengue protein is purified by proprietary chromatographic technique.
Form/Format	100mM Tris-HCl pH 8.0, 60mM NaCl, and 5% Glycerol.
Preparation and Storage	Dengue although stable at 4 degree C for 1 week, should be stored below -18 degree C. Please prevent freeze thaw cycles.

ADDITIONAL INFORMATION

Related Product Information for Dengue Virus NS1 n-end Type 2 recombinant protein	Description: The E Coli derived recombinant protein contains the NS1 Dengue Virus n-end Type-2 immunodominant regions. The Recombinant Dengue Virus NS1n is fused to a GST tag. Introduction: Caused by one of four closely related virusserotypesof the genus Flavivirus, family Flaviviridae, each serotype is sufficiently different that there is no cross-protection and epidemics caused by multiple serotypes (hyperendemicity) can occur. In cell culture experiments and mice Morpholinoantisense oligos have shown specific activity against Dengue virus.
Product Categories/Family for Dengue Virus NS1 n-end Type 2 recombinant protein	Viral Antigens; DENGUE VIRUS; Viral Antigens; Dengue

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
