

Sheep HYALURONIC ACID Polyclonal Antibody

SHEEP ANTI HYALURONIC ACID

CATALOG # AAA49884	HOST Sheep	REACTIVITY Based on sequence similarity, is expected to react with: Broad	APPLICATIONS ELISA
------------------------------	----------------------	---	------------------------------

PRODUCT SYNONYMS

HYALURONIC ACID; Polyclonal Antibody; SHEEP ANTI HYALURONIC ACID; anti-HYALURONIC ACID antibody

PRODUCT SPECIFICATIONS

Host	Sheep
Reactivity	Based on sequence similarity, is expected to react with: Broad
Clonality	Polyclonal
Isotype	IgG
Specificity	Sheep anti hyaluronic acid antibody recognizes hyaluronic acid, a mucopolysaccharide which is an integral part of the gel-like substance of animal connective tissue that serves as a lubricating and protective agent.
Purity/Purification	Purified IgG-Liquid
Form/Format	Phosphate buffered saline
Concentration	Approximate Protein Concentration: 5 mg/ml (varies by lot)
Applicable Applications for anti-HYALURONIC ACID antibody	ELISA
Species Cross Reactivity Note	N.B. Antibody reactivity and working conditions may vary between species. Cross reactivity is derived from testing within our laboratories, peer-reviewed publications or personal communications from the originators. Please refer to references indicated for further information.
Preservative Stabilisers	0.09% Sodium Azide (NaN ₃)
Preparation	Purified IgG prepared by affinity chromatography on Protein G.
Immunogen	Hyaluronic acid from human umbilical cord
Target Species	Human
RRID	AB_619714
Preparation and Storage	This product is shipped at ambient temperature. It is recommended to aliquot and store at -20°C on receipt. When thawed, aliquot the sample as needed. Keep aliquots at 2-8°C for short term use (up to 4 weeks) and store the remaining aliquots at -20°C. Avoid repeated freezing and thawing as this may denature the antibody. Storage in frost-free freezers is not recommended.

ADDITIONAL INFORMATION

Related Product Information for anti-HYALURONIC ACID antibody	Sheep anti hyaluronic acid antibody recognizes hyaluronic acid, a mucopolysaccharide which is an integral part of the gel-like substance of animal connective tissue that serves as a lubricating and protective agent.
