

Whale Thyroxine ELISA Kit | T4 elisa kit

Whale Thyroxine (T4) ELISA Kit

CATALOG #
AAA55499

REACTIVITY
Whale

PRODUCT SYNONYMS

Thyroxine; Whale Thyroxine (T4) ELISA Kit; T4 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Whale
Specificity	This assay has high sensitivity and excellent specificity for detection of Whale T4. No significant cross-reactivity or interference between Whale T4 and analogues was observed.
Samples	Serum, plasma and other biological fluids
Assay Type	Quantitative Competitive
Detection Range	20 ng/mL - 320 ng/mL
Sensitivity	7.5 ng/mL (mean of 6 independent assays)
Intra-assay Precision	Intra-assay Precision (Precision within an assay) Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision. Intra-Assay: CV<8%
Inter-assay Precision	Inter-assay Precision (Precision between assays) Three samples of known concentration were tested in forty separate assays to assess inter-assay precision. CV(%) = SD/meanX100. Inter-Assay: CV<12%
Preparation and Storage	Store at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for T4 elisa kit

Intended Uses: For the quantitative detection of Whale Thyroxine (T4) concentration in serum, plasma and other biological fluids.

Principle of the Assay: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with an antibody specific to T4. Standards or samples are added to the appropriate microtiter plate wells with biotin-conjugated T4. A competitive inhibition reaction is launched between T4 (Standards or samples) and biotin-conjugated T4 with the pre-coated antibody specific for T4. The more amount of T4 in samples, the less antibody bound by biotin-conjugated T4. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Substrate solution is added to the wells and the color develops in opposite to the amount of T4 in the sample. The color development is stopped and the intensity of the color is measured.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
