

## Porcine Adiponectin (ADP) ELISA Kit | ADP elisa kit

Pig Adiponectin (ADP) ELISA Kit

CATALOG #  
AAA56002

REACTIVITY  
Porcine

### PRODUCT SYNONYMS

Adiponectin (ADP); Pig Adiponectin (ADP) ELISA Kit; ACDC; ACRP30; ADIPQTL1; ADPN; APM-1; APM1; GBP28; adiponectin; OTTHUMP00000210047; OTTHUMP00000210048; adipocyte; C1Q and collagen domain containing; C1Q and collagen domain-containing; adipo; ADP elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                                                                                                                                                                                       |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity            | Porcine                                                                                                                                                                                               |
| Specificity           | This assay has high sensitivity and excellent specificity for detection of Pig 25-HVD3. No significant cross-reactivity or interference between Pig 25-HVD3 and analogues was observed.               |
| Samples               | Serum, Plasma And Other Biological Fluids                                                                                                                                                             |
| Detection Range       | 3.12 ng/mL-200 ng/mL                                                                                                                                                                                  |
| Sensitivity           | 1.04 ng/mL (mean of 6 independent assays).                                                                                                                                                            |
| Intra-assay Precision | Intra-assay Precision (Precision within an assay) Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision. Intra-Assay: CV<8%                      |
| Inter-assay Precision | Inter-assay Precision (Precision between assays) Three samples of known concentration were tested in forty separate assays to assess inter-assay precision. CV (%) = SD/meanX100. Inter-Assay: CV<12% |

### ADDITIONAL INFORMATION

|                                               |                                                                                                                                                  |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for ADP elisa kit | Intended Uses: For the quantitative detection of Pig 25-hydroxy vitamin D3 (25-HVD3) concentration in serum, plasma and other biological fluids. |
|-----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
