

Rabbit Histamine (HIS) ELISA Kit | HIS elisa kit

Rabbit Histamine (HIS) ELISA Kit

CATALOG #
AAA56015

REACTIVITY
Rabbit

PRODUCT SYNONYMS

Histamine (HIS); Rabbit Histamine (HIS) ELISA Kit; AKR1B10; AKR1B12; Aldose Reductase Like 1; HSI; ALDRLn; Aldo-Keto Reductase Family 1; Member B10; Aldose Reductase-Related Protein; Small Intestine Reductase; HIS elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Specificity	This assay has high sensitivity and excellent specificity for detection of Rabbit HIS. No significant cross-reactivity or interference between Rabbit HIS and analogues was observed.
Assay Type	Quantitative Competitive
Samples	Serum, plasma and other biological fluids
Detection Range	2.5 ng/mL - 60 ng/mL
Sensitivity	2 ng/mL (mean of 6 independent assays)
Intra-assay Precision	Intra-assay Precision (Precision within an assay) Three samples of known concentration were tested twenty times on one plate to assess intra-assay precision. Intra-Assay: CV<8%
Inter-assay Precision	Inter-assay Precision (Precision between assays) Three samples of known concentration were tested in forty separate assays to assess inter-assay precision. CV(%) = SD/meanX100. Inter-Assay: CV<10%
Preparation and Storage	Store at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for HIS elisa kit

Principle of the Assay: This assay employs the competitive enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with goat-anti-rabbit antibody. Standards or samples are added to the appropriate microtiter plate wells with an antibody specific for HIS and Horseradish Peroxidase (HRP) conjugated HIS. The competitive inhibition reaction is launched between with HRP labeled HIS and unlabeled HIS with the antibody. A substrate solution is added to the wells and the color develops in opposite to the amount of HIS in the sample. The color development is stopped and the intensity of the color is measured.

Intended Uses: For the quantitative detection of Rabbit Histamine (HIS) concentration in serum, plasma and other biological fluids.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
