

Mouse Alphavirus Monoclonal Antibody

Alphavirus (group)

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA58460	Mouse	Reactive with Eastern & Western Equine Encephalitis, VEE, Semliki & Chikungunya	Immunofluorescence, ELISA

PRODUCT SYNONYMS

Alphavirus; Monoclonal Antibody; Alphavirus (group); anti-Alphavirus antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Reactivity	Reactive with Eastern & Western Equine Encephalitis, VEE, Semliki & Chikungunya
Clonality	Monoclonal
Isotype	IgG1
Applicable Applications for anti-Alphavirus antibody	IF (Immunofluorescence), ELISA

ADDITIONAL INFORMATION

Related Product Information for anti-Alphavirus antibody	MONOTOPE purified preparations consist of >90% pure mouse monoclonal antibody which has been purified from ascites fluid or culture medium by protein A chromatography or sequential differential precipitations. The final preparation is formulated to a protein concentration of 100 ug/ml in 0.01 M phosphate buffered saline, pH 7.2 and contains 0.1% sodium azide. Each vial contains 1.0 ml. This product contains no stabilizing proteins and should be stored at 2-8°C until ready for use. Avoid repeated freeze-thawing by storing multiple aliquots at -20°C. Working dilution must be determined by the user. Suggested starting ranges are 1:10-1:50 for IFA, and 1:20-1:200 for ELISA. Custom conjugation of this antibody with HRP, alkaline phosphatase, biotin and fluorescein is available on a minimum order basis
Product Categories/Family for anti-Alphavirus antibody	Monotope Monoclonal Antibody

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
