

Rabbit Mycoplasma pneumoniae Polyclonal Antibody

Mycoplasma pneumoniae

CATALOG # AAA58535	HOST Rabbit	APPLICATIONS Immunofluorescence
------------------------------	-----------------------	---

PRODUCT SYNONYMS

Mycoplasma pneumoniae; Polyclonal Antibody; Mycoplasma pneumoniae Antiserum Products; anti-Mycoplasma pneumoniae antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Clonality	Polyclonal
Specificity	All antigens
Form/Format	BIOTIN
Applicable Applications for anti-Mycoplasma pneumoniae antibody	IF (Immunofluorescence)
Immunogen	purified M. pneumoniae
Reactivity Note	This antiserum has not been absorbed and may react with related microorganisms
Uninfected Cell Reactivity	Not reactive with bovine or human sera
Antiserum Characterization	(neat)

ADDITIONAL INFORMATION

Related Product Information for anti-Mycoplasma pneumoniae antibody	This product consists of purified IgG fraction of the above antiserum covalently coupled with the N-Hydroxysuccinimide ester of biotin under mild conditions to give a high degree of substitution. The product is formulated in a phosphate saline buffer (0.01M, pH 7.2) containing 0.1% sodium azide preservative. No stabilizing proteins have been added. Possible applications for this product include avidin and streptavidin amplification systems for immunohistochemistry, ELISA, fluorescence microscopy and immunoblotting. In addition, this product may be used in place of neat antiserum in almost any appropriate antibody-based technique. Protein concentration is 4-5 mg/ml. Recommended short term (<6 months) storage is liquid at 2-8 degree C. For longer term storage, aliquot and freeze. Unit size is 1.0 ml.
Product Categories/Family for anti-Mycoplasma pneumoniae antibody	OMNITOPE Polyclonal Antibodies

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
