

## Mouse anti-Human IL-18Rb Monoclonal Antibody | anti-IL-18Rb antibody

Mouse Anti-Human IL-18Rb Monoclonal Antibody, Azide Free Clone B-B46

| CATALOG # | HOST  | REACTIVITY | APPLICATIONS                                              |
|-----------|-------|------------|-----------------------------------------------------------|
| AAA58588  | Mouse | Human      | Functional Assay, ELISA, Flow Cytometry, Functional Assay |

### PRODUCT SYNONYMS

IL-18Rb; Monoclonal Antibody; Mouse Anti-Human IL-18Rb Monoclonal Antibody; Azide Free Clone B-B46; CDw218b; anti-IL-18Rb antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                           |
|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                              | Mouse                                                                                                                                     |
| Reactivity                                        | Human                                                                                                                                     |
| Clonality                                         | Monoclonal                                                                                                                                |
| Isotype                                           | IgG1                                                                                                                                      |
| Clone Number                                      | B-B46                                                                                                                                     |
| Specificity                                       | Recognises the IL-18Rb, a 65.1 kDa protein                                                                                                |
| Purity/Purification                               | Ion exchange chromatography                                                                                                               |
| Form/Format                                       | Azide free<br>Phosphate-buffered saline. Sterile-filtered through 0.22 µm and treated to remove endotoxins. Carrier and preservative free |
| Applicable Applications for anti-IL-18Rb antibody | FA (Functional Assay), ELISA, FCM/FACS (Flow Cytometry)                                                                                   |
| Antigen                                           | IL-18Rb                                                                                                                                   |
| Hybridoma                                         | Myeloma X63/AG.8653 x Balb/c spleen cells                                                                                                 |
| Immunisation                                      | Recombinant human IL-18Rb/Fc                                                                                                              |
| Preparation and Storage                           | Store at +2-8 degree C for 12 months. For longer storage, freeze aliquots.                                                                |

### ADDITIONAL INFORMATION

|            |                                              |
