

Mouse anti-All species CBP Tag Antibody | anti-CBP antibody

CBP Tag antibody

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA58848	Mouse	All species	ELISA, Western Blot

PRODUCT SYNONYMS

CBP Tag; CBP Tag antibody; Monoclonal Anti-CBP Tag; anti-CBP antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Reactivity	All species
Isotype	IgG1
Form/Format	Liquid (1mg/ml); In PBS (pH7.4), 50% Glycerol and 0.02% Sodium Azide
Applicable Applications for anti-CBP antibody	ELISA, WB (Western Blot)
Immunogen	A synthetic peptide RRWKKNFIAVSAANRFKKISSSGAL conjugated to KLH.
Preparation and Storage	Store at -20 degree C for 1 year. Or aliquot and store at -80 degree C for long term. Avoid repeated freeze and thaw cycles.

ADDITIONAL INFORMATION

Related Product Information for anti-CBP antibody	Epitope tags are short peptide sequences which are chosen because high-affinity antibodies can be reliably produced in many different species. These are usually derived from viral genes, which explain their high immunoreactivity. They are particularly useful for western blotting, immunofluorescence and immunoprecipitation experiments, although they also find use in antibody purification. CBP tag antibody is suitable for detecting the expression level of CBP fusion proteins where the CBP tag is terminal or internal.
Product Categories/Family for anti-CBP antibody	Tag & Loading Control Antibodies

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
