

Membrane and Cytosol Protein Extraction Kit

Membrane and Cytosol Protein Extraction Kit

CATALOG #
AAA59052

PRODUCT SYNONYMS

Membrane and Cytosol Protein Extraction Kit; Membrane and Cytosol Protein Extraction Kit extraction kit

ADDITIONAL INFORMATION

Related Product Information for Membrane and Cytosol Protein Extraction Kit extraction kit

1. Membrane and Cytosol Protein Extraction Kit provides a simple and convenient way for extracting membrane and cytosol protein from cultured cells and tissues. This kit can extract not only the membrane protein on the plasma membrane, also the membrane protein on the Mitochondrial, Endoplasmic reticulum and Golgi apparatus.
2. This kit breaks cells properly by homogenizing, and through low speed centrifugation, discards nucleus and precipitate produced by the unbroken cells. Then, collect the supernatant and centrifuge at high speed to obtain the cell membrane pellets and the cytosol protein included supernatant. At last, extract the membrane protein from the pellets through Membrane Protein Extraction Reagent.

Product Categories/Family for Membrane and Cytosol Protein Extraction Kit extraction kit

[Lysis & Protein Extraction](#)

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
