

## Rat Fibrinogen Beta (FGb) ELISA Kit | FGb elisa kit

Rat Fibrinogen Beta (FGb) ELISA Kit

CATALOG #  
**AAA64905**

REACTIVITY  
**Rat**

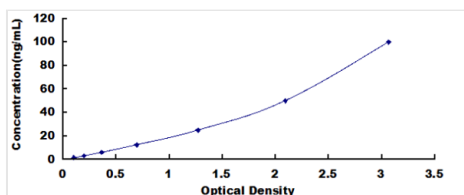

### PRODUCT SYNONYMS

Fibrinogen Beta (FGb); Rat Fibrinogen Beta (FGb) ELISA Kit; FG-B; Fibrinopeptide B; FGb elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                                        |
| Sequence Length         | 479                                                                                                                                                                                                        |
| Samples                 | Plasma.                                                                                                                                                                                                    |
| Assay Type              | Sandwich                                                                                                                                                                                                   |
| Detection Range         | 1.56-100ng/mL                                                                                                                                                                                              |
| Sensitivity             | 0.65ng/mL                                                                                                                                                                                                  |
| Intra Assay             | CV<10%                                                                                                                                                                                                     |
| Inter Assay             | CV<12%                                                                                                                                                                                                     |
| Preparation and Storage | For unopened kit, all reagents should be kept according to the labels on vials. The TMB Substrate, Wash Buffer, Stop Solution should be stored at 4 degree C. All others should be stored at -20 degree C. |

### NCBI AND UNIPROT INFORMATION

|                                  |                        |
|----------------------------------|------------------------|
| NCBI GI #                        | 158186678              |
| NCBI GeneID                      | 24366                  |
| NCBI Accession #                 | NP_064456.2            |
| NCBI GenBank Nucleotide #        | NM_020071.2            |
| UniProt Accession #              | P14480; Q5I0P7; Q7TME5 |
| Molecular Weight                 | 56,613 Da              |
| NCBI Official Full Name          | fibrinogen beta chain  |
| NCBI Official Synonym Full Names | fibrinogen beta chain  |

|                               |                           |
|-------------------------------|---------------------------|
| NCBI Official Symbol          | Fgb                       |
| NCBI Official Synonym Symbols | Ab1-181; Ab1-216; Ac1-581 |
| NCBI Protein Information      | fibrinogen beta chain     |
| UniProt Protein Name          | Fibrinogen beta chain     |
| UniProt Gene Name             | <b>Fgb</b>                |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
