

Human Centromere Protein F (CENPF) RTU ELISA Kit | CENPF rtu elisa kit

Human Centromere Protein F (CENPF) ELISA Kit

CATALOG #
AAA69717

REACTIVITY
Human

PRODUCT SYNONYMS

Centromere Protein F (CENPF); Human Centromere Protein F (CENPF) ELISA Kit; CENP-F; CENF; Hcp-1; Centromere protein F(350/400kD; Mitosin); AH antigen; Kinetochore protein CENPF; Mitosin; CENPF rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	3114
Assay Type	Sandwich
Samples	Tissue Homogenates, Cell Lysates or Other Biological Fluids.
Detection Range	0.156-10ng/mL
Sensitivity	0.046ng/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

Related Product Information for CENPF rtu elisa kit

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to CENPF. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to CENPF. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain CENPF, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of CENPF in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	55770834
NCBI GeneID	1063
NCBI Accession #	NP_057427.3
NCBI GenBank Nucleotide #	NM_016343.3
UniProt Accession #	P49454; Q13171; Q13246; Q5VVM7
Molecular Weight	367,764 Da
NCBI Official Full Name	centromere protein F
NCBI Official Synonym Full Names	centromere protein F
NCBI Official Symbol	CENPF
NCBI Official Synonym Symbols	CENF; hcp-1; CILD31; STROMS; PRO1779
NCBI Protein Information	centromere protein F
UniProt Protein Name	Centromere protein F
UniProt Gene Name	CENPF
UniProt Synonym Gene Names	CENP-F

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
