

Porcine Fibroblast Growth Factor 2, Basic (FGF2) RTU ELISA Kit | FGF2 rtu elisa kit

Porcine Fibroblast Growth Factor 2, Basic (FGF2) ELISA Kit

CATALOG #
AAA70646

REACTIVITY
Porcine

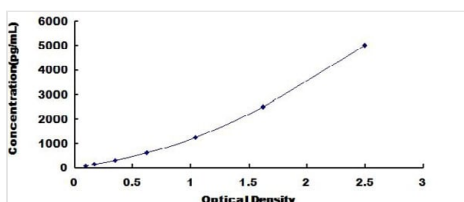

PRODUCT SYNONYMS

Fibroblast Growth Factor 2; Basic (FGF2); Porcine Fibroblast Growth Factor 2; Basic (FGF2) ELISA Kit; B-FGF; BFGF; FGFB; HBGH-2; Basic Fibroblast Growth Factor; Heparin-binding growth factor 2; FGF2 rtu elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Porcine
Assay Type	Sandwich
Samples	Serum, Plasma, Tissue Homogenates, Cell Lysates, Cell Culture Supernates or Other Biological Fluids.
Detection Range	78.1-5000pg/mL
Sensitivity	41.78pg/mL
RTU ELISA Kit's Advantage	The Ready-To-Use (RTU) Kits require fewer steps in setup and take less time to run. Detection Solutions are pre-diluted and total incubation time is shorter than many other ELISA Kits.
Preparation and Storage	For unopened kits: All the reagents should be kept at 4 degree C upon receipt. For opened kits: Once the kit is opened, the remaining reagents still need to be stored according to the above storage conditions. In addition, return the unused wells to the foil pouch containing the desiccant pack and reseal along entire edge of zip-seal.

ADDITIONAL INFORMATION

**Related Product Information for FGF2
rtu elisa kit**

Test Principle: The microtiter plate provided in this kit has been pre-coated with an antibody specific to FGF2. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific to FGF2. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain FGF2, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm $\pm$ 10nm. The concentration of FGF2 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GeneID

[397643](#)

UniProt Accession #	F1RQN3
NCBI Official Symbol	FGF2
NCBI Protein Information	fibroblast growth factor 2

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
