

anti-Mouse Ig (polyspecific) Polyclonal Antibody

Anti-Mouse Ig (polyspecific), FITC (Polyclonal) (rabbit IgG)

CATALOG #
AAA74229

REACTIVITY
Mouse

PRODUCT SYNONYMS

Ig (polyspecific); Polyclonal Antibody; Anti-Mouse Ig (polyspecific); FITC (Polyclonal) (rabbit IgG); RABBIT ANTI-MOUSE IMMUNOGLOBULIN (Fluorescein Conjugated); anti-Ig (polyspecific) antibody

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Clonality	Polyclonal
Presentation	FITC - conjugated antibody in carbonate buffer.
Preparation and Storage	Store at -20 degree C or below before reconstitution. Reconstitute with 1 ml of distilled water. Aliquot and store at -70 degree C after reconstitution. Prepare aliquots in appropriate volume for single use to avoid repeated freeze-thawing. Avoid prolonged exposure to light.

ADDITIONAL INFORMATION

Related Product Information for anti-Ig (polyspecific) antibody

The antiserum is prepared by immunizing rabbits with mouse IgG. It is polyvalent with respect to classes of mouse immunoglobulin. The antiserum is specific for mouse immunoglobulin: It does not react with mouse serum proteins other than immunoglobulins; it does not cross-react with immunoglobulins of most other species but it does cross-react with rat immunoglobulin.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
