

Ig (polyspecific) Polyclonal Antibody

Anti-Mouse Ig (polyspecific), Lyophilized (Polyclonal) (rabbit serum)

CATALOG #
AAA74231

PRODUCT SYNONYMS

Ig (polyspecific); Polyclonal Antibody; Anti-Mouse Ig (polyspecific); Lyophilized (Polyclonal) (rabbit serum); RABBIT ANTI-MOUSE IMMUNOGLOBULIN (Polyspecific); anti-Ig (polyspecific) antibody

PRODUCT SPECIFICATIONS

Clonality	Polyclonal
Concentration	Protein Concentration: 167.8 + 1.1 mg/ml. (varies by lot)
Preservative	No preservative added, as it may interfere with the antibody activity. No foreign protein added.
Reconstitution	Reconstitute with 2 ml of cold distilled water. After reconstitution store at -70 degree C, as repeated freezing and thawing may result in reduced titer.
Presentation	2 ml, lyophilized
Preparation and Storage	Store at -20 degree C or below before reconstitution.

ADDITIONAL INFORMATION

Related Product Information for anti-Ig (polyspecific) antibody	This antiserum is a rabbit antiserum raised against mouse immunoglobulin. It is polyvalent with respect to classes of mouse immunoglobulin. It is highly specific for mouse immunoglobulins and does not crossreact with immunoglobulins from most other species. However, crossreactivity with rat serum has been observed. This can be eliminated by addition of 50 l of rat serum per ml of antiserum.
---	---

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
