### PRODUCT SYNONYMS

Albumin; Polyclonal Antibody; Anti-Mouse Albumin; Antiserum; (Polyclonal) (rabbit serum); Rabbit anti-Mouse Albumin; anti-ALB antibody

### PRODUCT SPECIFICATIONS

|                                               |                                                 |
|-----------------------------------------------|-------------------------------------------------|
| Host                                          | Rabbit                                          |
| Reactivity                                    | Mouse                                           |
| Clonality                                     | Polyclonal                                      |
| Isotype                                       | IgG                                             |
| Form/Format                                   | Antiserum                                       |
| Sequence Length                               | 609                                             |
| Applicable Applications for anti-ALB antibody | ID (Immunodiffusion), IP (Immunoprecipitation)  |
| Presentation                                  | 2 ml, neat serum.                               |
| Preservatives                                 | 0.1% sodium azide                               |
| Preparation and Storage                       | Divide into useful aliquots and store at -20°C. |

| <b>For Ouchterlony:</b> The following results were obtained in ouchterlony with samples of various types. In all cases, the sample size was 10 µl; the distance between the wells was 5 mm, and the test time 24 hours. |                                                                           |
| <b>Sample Type</b>                                                                                                                                                                                                      | <b>Results</b>                                                            |
| Mouse Albumin Purified Protein                                                                                                                                                                                          | Positive                                                                  |
| Normal Mouse Serum                                                                                                                                                                                                      | Single band homogeneous with band to albumin in the test described above. |

Application Data

### ADDITIONAL INFORMATION

|                                                   |                                                                                                                                                                                               |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-ALB antibody | MBS524102 is a rabbit antiserum directed against mouse albumin. The antiserum of individual host animals was monitored for titer and specificity before pooling into uniform high titer lots. |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
