

Rabbit anti-Rat Macrophage Polyclonal Antibody

Rat Macrophage antibody

CATALOG # AAA74922	HOST Rabbit	REACTIVITY Rat
------------------------------	-----------------------	--------------------------

PRODUCT SYNONYMS

Macrophage; Polyclonal Antibody; Rat Macrophage antibody; Polyclonal Rat Macrophage; Anti-Rat Macrophage; Rodent Macrophage; anti-Macrophage antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Rat
Clonality	Polyclonal
Specificity	Rat
Purity/Purification	Rat Macrophage antibody was purified by Salt fractionation, ion exchange chromatography and gel filtration.
Form/Format	Supplied as a 0.2 um filtered liquid with no preservatives.
Biological Significance	Macrophages are white blood cells produced by the differentiation of monocytes in tissues. Monocytes and macrophages are phagocytes. Macrophages function in both non-specific defense (innate immunity) as well as help initiate specific defense mechanisms (adaptive immunity) of vertebrate animals. Their role is to phagocytose (engulf and then digest) cellular debris and pathogens, either as stationary or as mobile cells.
Biohazard Information	This product contains sodium azide as preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling.
Immunogen	Rat macrophage antibody was raised in rabbit using rat macrophages as the immunogen.
Preparation and Storage	Aliquot and store at -20 degree C. Avoid repeated Freeze/Thaw cycles
