

Goat Rotavirus Polyclonal Antibody

Rotavirus antibody (HRP)

CATALOG # AAA75109	HOST Goat	APPLICATIONS Western Blot, Immunohistochemistry, ELISA
------------------------------	---------------------	--

PRODUCT SYNONYMS

Rotavirus; Polyclonal Antibody; Rotavirus antibody (HRP); Polyclonal Rotavirus antibody conjugated to HRP; Anti-Rotavirus antibody conjugated to HRP; anti-Rotavirus antibody

PRODUCT SPECIFICATIONS

Host	Goat
Clonality	Polyclonal
Specificity	Rotavirus
Form/Format	Liquid; PBS, pH 7.5 containing 1% BSA and 0.005% thimerosal, conjugated to HRP.
Concentration	2.0mg/ml (varies by lot)
Applicable Applications for anti-Rotavirus antibody	WB (Western Blot), IHC (Immunohistochemistry), ELISA
Biological Significance	Rotavirus is the most common cause of severe diarrhea among infants and young children, and is one of several viruses that cause infections often called stomach flu, despite having no relation to influenza. It is a genus of double-stranded RNA virus in the family Reoviridae. By the age of five, nearly every child in the world has been infected with rotavirus at least once.
Cross-Reactivity	Human rotavirus 95% Specific to ICPs and late structural (virions) antigens
Tag/Conjugate	HRP
Immunogen	bovine (calf diarrhea virus)
Preparation and Storage	Store at 4°C for up to 6 months. For longer storage , aliquot and freeze.

ADDITIONAL INFORMATION

Related Product Information for anti-Rotavirus antibody	Goat polyclonal Rotavirus antibody (HRP) conjugated
Product Categories/Family for anti-Rotavirus antibody	Infectious Disease ; Conjugated Polyclonal Antibodies

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
