

Rabbit BRSV Polyclonal Antibody | anti-BRSV antibody

BRSV antibody

CATALOG # AAA75168	HOST Rabbit	APPLICATIONS Western Blot
------------------------------	-----------------------	-------------------------------------

PRODUCT SYNONYMS

BRSV; Polyclonal Antibody; BRSV antibody; Polyclonal BRSV; Anti-BRSV; Bovine Respiratory Syncytial Virus; anti-BRSV antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Specificity	BRSV/RSV
Purity/Purification	BRSV antibody was purified by affinity chromatography.
Form/Format	Supplied in PBS containing 0.02% sodium azide.
Concentration	1.0 mg/ml (varies by lot)
Applicable Applications for anti-BRSV antibody	WB (Western Blot)
Biological Significance	Bovine respiratory syncytial virus (BRSV) is an RNA virus classified as a pneumovirus in the paramyxovirus family. Goats and sheep can also be infected by respiratory syncytial viruses. BRSV is distributed worldwide, and is indigenous in the cattle population. BRSV infections associated with respiratory disease occur for the most part in young beef and dairy cattle.
Cross Reactivity	Reacts with residues 201-211 of the 63 kDa BRSV F protein.
Biohazard Information	This product contains sodium azide as preservative. Although the amount of sodium azide is very small appropriate care must be taken when handling this product.
Immunogen	BRSV antibody was raised in rabbit using residues 201-211 [KELLPKVNNHDC] of the 63 kDa BRSV F protein as the immunogen.
Preparation and Storage	Store at 4°C short term, -20°C long term. Avoid repeated freeze/thaw cycles.
