

## 4-hydroxy-Triazolam Biochemical

4-hydroxy-Triazolam

CATALOG #  
**AAA77011**

HOST  
**Synthetic**

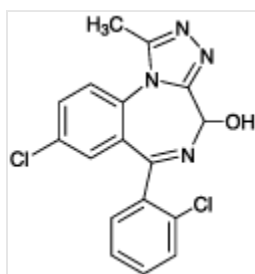

### PRODUCT SYNONYMS

4-hydroxy-Triazolam; 4-hydroxy-Triazolam biochemical

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                     |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | Synthetic                                                                                                                           |
| Purity/Purification     | 98.74% (HPLC)                                                                                                                       |
| Formula                 | C <sub>17</sub> H <sub>12</sub> Cl <sub>2</sub> N <sub>4</sub> O                                                                    |
| CAS Number              | 65686-11-5                                                                                                                          |
| Solubility              | Soluble in DMSO (5mg/ml warm) or methanol (1mg/ml warm).                                                                            |
| Preparation and Storage | Long term: Ambient<br>Store, as supplied, at room temperature for up to 1 year. Store solutions at -20 degree C for up to 3 months. |
