

## Mouse Malaria (HRP-2) Monoclonal Antibody | anti-HRP-2 antibody

Malaria (HRP-2) Antibody

| CATALOG # | HOST  | APPLICATIONS                                          |
|-----------|-------|-------------------------------------------------------|
| AAA77107  | Mouse | Flow Cytometry, Functional Assay, Lateral Flow, ELISA |

### PRODUCT SYNONYMS

Malaria (HRP-2); Monoclonal Antibody; Malaria (HRP-2) Antibody; anti-HRP-2 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                              |
|-------------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| Host                                            | Mouse                                                                                                        |
| Clonality                                       | Monoclonal                                                                                                   |
| Specificity                                     | Plasmodium falciparum (malaria) HRP-2                                                                        |
| Purity/Purification                             | >90%                                                                                                         |
| Form/Format                                     | Purified Monoclonal Antibody<br>10 mM Phosphate Buffered Saline, pH 7.4 with 0.15 M NaCl                     |
| Concentration                                   | 9 mg/mL (varies by lot)                                                                                      |
| Applicable Applications for anti-HRP-2 antibody | FCM/FACS (Flow Cytometry), LF (Lateral Flow), ELISA                                                          |
| Immunogen                                       | Recombinant Malaria HRP-2 antigen                                                                            |
| Preservative                                    | 0.1% ProClin 300                                                                                             |
| Preparation and Storage                         | Short Term ( $\leq$ 2 weeks): 2-8 degree C.<br>Long Term: -20 degree C. Avoid repeated freezing and thawing. |

### ADDITIONAL INFORMATION

|                                                   |                     |
|---------------------------------------------------|---------------------|
| Product Categories/Family for anti-HRP-2 antibody | Infectious Diseases |
|---------------------------------------------------|---------------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
