

## Rabbit Zolpidem Polyclonal Antibody

Zolpidem Antibody

|                              |                       |                                            |
|------------------------------|-----------------------|--------------------------------------------|
| CATALOG #<br><b>AAA77122</b> | HOST<br><b>Rabbit</b> | APPLICATIONS<br><b>ELISA, Lateral Flow</b> |
|------------------------------|-----------------------|--------------------------------------------|

### PRODUCT SYNONYMS

Zolpidem; Polyclonal Antibody; Zolpidem Antibody; anti-Zolpidem antibody

### PRODUCT SPECIFICATIONS

|                                                    |                                                                                                     |
|----------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| Host                                               | Rabbit                                                                                              |
| Clonality                                          | Polyclonal                                                                                          |
| Specificity                                        | Zolpidem                                                                                            |
| Purity/Purification                                | Protein A Purified Ig Fraction                                                                      |
| Form/Format                                        | Protein A Purified Polyclonal Antibody, Ig Fraction                                                 |
| Concentration                                      | 3.19 mg/ml (varies by lot)                                                                          |
| Applicable Applications for anti-Zolpidem antibody | ELISA, LF (Lateral Flow)                                                                            |
| Preservative                                       | 0.05% Sodium Azide                                                                                  |
| Supplied In                                        | 0.05M Phosphate, pH 7.15 with 0.85% Sodium Chloride                                                 |
| Preparation and Storage                            | Short Term (? 2 weeks): 2-8 degree C. Long Term: -20 degree C. Avoid repeated freezing and thawing. |

### ADDITIONAL INFORMATION

|                                                      |                |
|------------------------------------------------------|----------------|
| Product Categories/Family for anti-Zolpidem antibody | Drugs of Abuse |
|------------------------------------------------------|----------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
