

## Mouse Pregnanediol Glucuronide (PDG) Monoclonal Antibody | anti-PDG antibody

Pregnanediol Glucuronide (PDG) Antibody

|                              |                      |                                            |
|------------------------------|----------------------|--------------------------------------------|
| CATALOG #<br><b>AAA77244</b> | HOST<br><b>Mouse</b> | APPLICATIONS<br><b>Lateral Flow, ELISA</b> |
|------------------------------|----------------------|--------------------------------------------|

### PRODUCT SYNONYMS

Pregnanediol Glucuronide (PDG); Monoclonal Antibody; Pregnanediol Glucuronide (PDG) Antibody; anti-PDG antibody

### PRODUCT SPECIFICATIONS

|                                               |                                                                                                           |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| Host                                          | Mouse                                                                                                     |
| Clonality                                     | Monoclonal                                                                                                |
| Isotype                                       | IgG1, kappa light chain                                                                                   |
| Specificity                                   | PDG                                                                                                       |
| Purity/Purification                           | >90%                                                                                                      |
| Form/Format                                   | Purified Monoclonal Antibody<br>0.15M Potassium Phosphate Buffer, pH 7.2 with 0.85% Sodium Chloride       |
| Concentration                                 | 13.0 mg/mL (varies by lot)                                                                                |
| Applicable Applications for anti-PDG antibody | LF (Lateral Flow), ELISA                                                                                  |
| Immunogen                                     | PDG-BSA                                                                                                   |
| Preservative                                  | 0.05% Sodium Azide                                                                                        |
| Preparation and Storage                       | Short Term: 2 degree C to 8 degree C.<br>Long Term: -20 degree C.<br>Avoid repeated freezing and thawing. |

### ADDITIONAL INFORMATION

|                                                 |          |
|-------------------------------------------------|----------|
| Product Categories/Family for anti-PDG antibody | Hormones |
|-------------------------------------------------|----------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
